

Thank you for consulting Historic England on the Pre-submission version of the Charlebury Neighbourhood Plan.

I am happy to confirm that we do not wish to raise any concerns with any elements of the present version of the plan and are pleased to congratulate the steering group on the progress they have made. We are pleased to support the strong focus placed on conserving the character of the plan area's landscape, including its many valued landscape views, as well as the strong consideration and guidance provided to support good design for future development.

We fully support the making of local lists within or through neighbourhood plans - although we do not have capacity to review the proposed list we feel the criteria are appropriate and provide evidence of a clear assessment process. With regard to the list presented in Appendix E, we feel that the detail should be expanded to explain how each meets the relevant criterion not only to demonstrate that the assessment process has been rigorous but also to inform decision making later by providing clarity over the significance of each asset.

We hope these comments are of assistance. I would be grateful if you could confirm receipt of this email.

Yours sincerely
